PROFILE

Aspiring Software Engineer with 1 year of hands-on experience in software development, with a strong foundation in programming principles and a passion for Web Development and UI/UX Design. Skilled in Frontend Development, Responsive Web Design, React.js, JavaScript, Python, HTML, and CSS, with practical experience in developing, deploying real time application , API integration, debugging, and production support. Highly motivated and adaptable, with excellent communication skills and a strong desire to contribute, learn, and grow in a dynamic software development environment.

EDUCATION

- B.E.(Computer Science and Engineering)** Mount zion
College of Engineering and Technology **CGPA: 7.86** 2021 - 2025
- HSC(STATE BOARD)** 2021
St.Mary's Higher Secondary Boys School
Percentage: 84.33%
- SSLC(STATE BOARD)** 2019
St.Mary's Higher Secondary Boys School
Percentage : 76.8%

WORK EXPERIENCE

- Ashok Leyland** (Deputed through Hinduja Tech Limited)
Front-End Developer APR 2026 – Present
Working on application support and enhancement for Ashok Leyland, Developing and enhancing web applications using React.js and integrating Fast APIs. Identifying and resolving application bugs, production issues, and support testing and releases, gathering requirements and implementing business-driven features. Managing application deployments and files across environments using PuTTY and WinSCP, while collaborating with users and team members.
- Hinduja Tech Limited**
Front-End Developer SEP 2025 - APR 2026
Developed a unified ALM platform for Ashok Leyland using React.js and SCSS, building responsive, persona-based dashboards for 15+ engineering and management roles.
Integrated multi-tool APIs (GitLab, Redmine, IBM) to consolidate real-time data and deliver end-to-end traceability from requirements through design, code, and validation

INTERSHIPS

- Haztech Solutions** (Remote)
FullStack Developer · Internship MAY-AUG 2025
Currently working as a Full Stack Developer Intern at Haztech Solutions, building client websites using Next.js.
Contributing in an Agile Scrum environment with tools like Jira and ClickUp for task management and collaboration.
- Infotact Solutions** (Remote)
Design Associate · Internship APR-JUN 2025
Collaborate with web development and product teams to design intuitive, user-centered Interfaces for websites and web applications.
Create wireframes, mockups, prototypes, and user flows using tools like Figma, Canva, or Sketch based on project requirements.
- Sedin Technologies** (On-site)
Full Stack Developer · Internship JUL-AUG 2024
The primary focus of my internship was on web development, specifically using React, a popular JavaScript library for building user interfaces.
Throughout the internship, I'm not only learned how to use React to build dynamic web applications but also gained a deep understanding of CSS styling.
